The Census is coming — and it counts! State and local governments, businesses, nonprofits, and foundations, rely on Census data to allocate funding, define where services are delivered, and promote economic development. The information is valuable for health care, education, housing, transportation, and business.

We invite you to support this effort by becoming a Champion, Collaborator, Connector, or Colleague Sponsor of this important event.

A full, fair count is crucial. Our state has too much at stake for the social sector to stay on the sidelines.

One way foundations and corporate giving programs who are Council members can support our work is by sponsoring the CNJG 2019 Conference for New Jersey's Social Sector.

The Council has a unique voice to raise this issue among New Jersey's philanthropic and nonprofit sectors. National and state experts will raise and answer important questions to help the social sector build the capacity to meet the once-in-a-decade obligation to engage at the deepest level.
